

FUNCTION:

AEF-300/AEF-300T Series Sensor Faucet Systems

The AD05 plug-in 6V AC power adapter is used as an alternate power source with AMTC’s sensor faucet systems. The AC adapter easily plugs into the faucet system to provide for many years of dependable operation and eliminates the need to routinely replace batteries. The AC adapter is recommended for high traffic facilities where the faucets get frequent use such as office buildings, restaurants, hospitals, schools, etc. When the AC power adapter is used in conjunction with the standard battery pack, the batteries become a back up power source that continues to power the faucet system in case of an electrical power failure.

ASD-100 and ASD-500 Sensor Soap Dispenser Systems

The AD05 plug-in 6V AC power adapter is also used as an alternate power source with AMTC’s model ASD-100 and ASD-500 sensor soap dispenser systems. The AC adapter easily plugs into the soap dispenser system to provide for many years of dependable operation and eliminates the need to routinely replace batteries. The AC adapter is recommended for high traffic facilities where the soap dispensers get frequent use such as office buildings, restaurants, hospitals, schools, etc.

TECHNICAL SPECIFICATIONS:

Description:	Plug-in 6V AC Power Adapter
Power Jack Type:	Standard AC Wall Power Outlet
Input:	100-240V 50-60 Hz 0.31A Max.
Output:	5.9V — 2.0A 11.8W Max.
Product Height:	3.0"
Product Width:	1.5"
Product Depth:	2.0"
Product Weight:	4 oz.
Length of Cord:	72" (6 ft.)

PLUG-IN 6 VOLT AC POWER ADAPTER W/EXTENSION

Includes one AD05 plug-in 6V AC power adapter with one extension to power the following:

- Up to 4 sensor faucets
- Up to 4 sensor soap dispensers
- Up to 2 sensor faucets and 2 sensor soap dispensers

AD05-EXT (Extension only) can be purchased separately if additional units need to be linked.
