FOR IMMEDIATE RELEASE

HYBRIDFLO® Models AEF-300 and AEF-302 Automatic Faucet Systems Are Introduced

WOODLAND HILLS, CA (January 2009) - AMTC introduces two new HYBRIDFLO® Automatic Faucet System models to its line. The AEF-300 Model was designed for one hole or three hole 8" center-set mounting applications. The AEF-302 Model is a Gooseneck faucet designed for applications where gooseneck spouts are required/preferred.

About AMTC

AMTC is a leading manufacturer of advanced plumbing systems and water conservation devices for commercial applications. The company specializes in "touch-free" electronic flush valves, urinal and commercial toilet systems, electronic faucet systems, and electronic soap dispenser systems. All of AMTC's electronic plumbing systems utilize its proprietary Micro-Cam Technology as a more reliable alternative to solenoid technology usually found in most competitor systems.
