## **FOR IMMEDIATE RELEASE**

### **AMTC SPONSORS THE UPGRADE OF LOCAL CHARTER SCHOOL RESTROOMS TO TOUCH-FREE WITH HYBRIDFLUSH® SIDE MOUNT FLUSHERS**

CHATSWORTH, CA (December 2019) - Advanced Modern Technologies Corporation (AMTC) is pleased to announce the installation of HYBRIDFLUSH® side mount flushers at Citizens of the World Charter School located in Hollywood, California. This project includes a complete retrofit of all public restroom toilets and urinals to touch-free fixtures. This upgrade will help eliminate cross-contamination of germs and promote environmental stewardship and sustainability.

“We at AMTC are proud to do our part to help all types of facilities in our local community to become safer and more sustainable with the use of our innovative products. I believe our touch-free products installed at Citizens of the World Charter School Hollywood will help keep students safe from contracting germs in the restroom that may otherwise make them sick and keep them out of school. If we can help even one student from getting sick so that they do not pass on germs to other students or miss any time at school, then that is a huge win for everyone. Our goal is to make a positive impact for the students and faculty”, says AMTC Vice-President Leo Maercovich.

#### **About AMTC**

AMTC is a leading manufacturer of advanced plumbing systems and water conservation devices for commercial applications. The company specializes in “touch-free” electronic flush valves, urinal and commercial toilet systems, electronic faucet systems, and electronic soap dispenser systems. All AMTC electronic plumbing systems utilize its proprietary Micro-Cam Technology as a more reliable alternative to solenoid technology usually found in most competitor systems.
