Why choose the HYBRIDFLO® Automatic Faucet System?

Superior Quality and Reliability

- Includes a high quality solid brass spout for durability.
- Powered by 4 C-Cell batteries (life approx. 2-3 years).
- Includes alternate power capabilities by way of electricity power (AC) or a hydro-power electric generator.
- Includes a durable control box that houses all components including an easily accessible motor drive mechanism and a built-in water filtering system.

Water Conservation and Cost Savings

- Specializes in immediately reducing water waste by eliminating unnecessary water flow.
- **Saves up to 70% on water costs associated with faucet usage.**
- Provides the user water only when needed resulting in reduced water usage and associated costs.

Increased Sanitation & Hygiene

- Eliminates the need to touch handles to activate.
- Completely “touch free” therefore reducing or eliminating cross-contamination.
- Promotes thorough hand washing for a healthier and more pleasant experience.
- Complies with ADA (Americans with Disabilities Act) standards.

Modernization

- Improves the quality of life through advanced technology.
- Enhances the image of your entire restroom.
